

## Heating & Handling

### THAW TIME

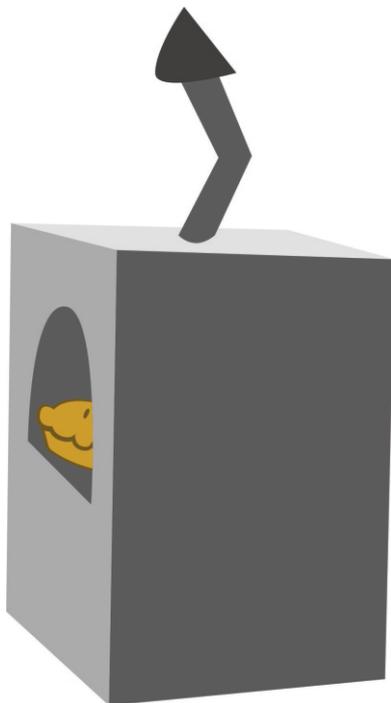

24 - 36 hours in chiller

Once thawed, use within 13 days for pies, and 11 days for rolls.

Our boxes are specially designed to tear the front off for easy access.

Write a USE BY DATE (13 days from the date taken from freezer). Remember to rotate all stock according to due date.

### BAKE TIME 20 minutes

#### OVEN (recommended for the perfect pie)

- Preheat oven to 180°C (BAGGED) or 160°C (UNBAGGED).
- Heat for 20 minutes OR until internal temperature reaches 75°C

Please note:

If bag is wet and put into a hot oven- packaging will burn. To ensure optimal quality, dry packaging out in an oven at low temperature.

#### MICROWAVE (if you just can't wait)

- Place the pie (in the bag) in the centre of the microwave.

1100w = 75 secs

750w = 120 secs

### TEMPERATURE GUIDELINES

FREEZER	-18°C
CHILLER	4°C
OVEN - bagged	180°C
- unbagged	160°C
PIE WARMER	65 - 75°C
